

| PROFESSIONAL ARCHITECTURAL HARDWARE MANUFACTURER

FORTIS HARDWARE

PRECISION ENGINEERING FOR MIDDLE EAST PROJECTS

Supplying high-end door manufacturers, WPC door factories, and architectural distributors across Saudi Arabia and the GCC region.

CO RPO RATE PRO F I L E 2026 / 2027

CORPORATE BACKGROUND

COMPANY INTRODUCTION

FORTIS Hardware is a specialized industrial manufacturer dedicated to professional architectural door hardware. Rejecting low-grade commodity models, we position ourselves as an engineering-driven partner focused on absolute reliability and structural integrity.

Headquartered in Guangzhou, China, with advanced manufacturing facilities, Fortis supplies premier door factories, WPC manufacturers, and commercial building contractors throughout Saudi Arabia and the Middle East.

Our operational standards align strictly with European manufacturing protocols, guaranteeing that every product withstands rigorous climatic extremes and heavy architectural usage.

EUROPEAN QUALITY STANDARDS

Adherence to EN1935, EN12209, and CE certifications ensuring durability in commercial environments.

REGIONAL CLIMATE ADAPTABILITY

Advanced corrosion-resistant finishes engineered specifically for coastal and desert environments in the GCC.

LONG-TERM PARTNERSHIP

Stable supply chain execution designed to support large-scale commercial and residential development projects.

CATALOG OVERVIEW

PRODUCT PORTFOLIO

HEAVY-DUTY HINGES

Grade 304 and 316 stainless steel architectural hinges featuring precision concealed ball bearings for high-frequency doors.

Specs: EN1935 Grade 13, 500+ hour salt spray corrosion resistance, tested for 200,000 cycles.

ARCHITECTURAL LEVER HANDLES

Ergonomically crafted solid brass and stainless steel levers combining minimalist European aesthetics with heavy-duty internal springs.

Specs: Concealed fixings, PVD scratch-resistant architectural finishes, secure spindle mechanisms.

MORTISE LOCKS & CYLINDERS

High-security mechanical mortise locks designed for timber, steel, and WPC door profiles with anti-drill protection.

Specs: EN12209 compliance, heavy steel forend, master-key system compatibility.

SYSTEM INTEGRATION

COMPLETE DOOR HARDWARE SOLUTION

Navigating multi-vendor procurement can introduce compatibility errors and delivery delays. Fortis provides a **complete, unified hardware solution** covering every functional touchpoint of an architectural door leaf.

From concealed door closers and panic exit devices to floor springs, drop-down seals, and magnetic door holders, our integrated hardware packages ensure seamless mechanical harmony and uniform aesthetic finishes across entire building projects.

COMPLETE DOOR HARDWARE SOLUTION

UNIFIED FINISH AESTHETICS

Consistent PVD Matt Black, Satin Stainless, and Dark Bronze plating across all complementary hardware items.

PROJECT SCHEDULING KITS

Hardware packaged per door opening, significantly reducing on-site sorting time and installation errors.

PRODUCTION INFRASTRUCTURE

MANUFACTURING CAPABILITY

Our state-of-the-art production facility houses advanced automated CNC machining centers, precision stamping presses, robotic polishing cells, and automated PVD coating lines.

By maintaining total vertical integration from raw metal extrusion to final assembly and laser marking, we control production timelines and maintain stringent dimensional tolerances within 0.01mm across all output batches.

MANUFACTURING CAPABILITY

ADVANCED AUTOMATION

High-precision multi-axis CNC machinery ensuring flawless geometric consistency and interchangeable parts.

HIGH-CAPACITY OUTPUT

Scalable production lines capable of fulfilling large-scale commercial real estate orders on strict deadlines.

ASSURANCE & TESTING

QUALITY CONTROL

01 SPECTRAL ANALYSIS

100% incoming raw metal verification.

02 DIMENSIONAL INSPECTION

Optical sorting & laser tolerance checks.

03 SALT SPRAY SIMULATION

Corrosion testing exceeding 500 hours.

04 CYCLE ENDURANCE TESTING

Mechanical stress tests up to 200k cycles.

BESPOKE ENGINEERING

OEM & CUSTOMIZATION

Fortis partners closely with leading door manufacturers and architectural brands to deliver comprehensive OEM and ODM customization services.

Whether you require proprietary handle designs, customized laser-etched brand insignia, specialized fixing hole configurations, or unique PVD color matches, our in-house R&D team translates concepts into production-ready tooling within 10–14 days.

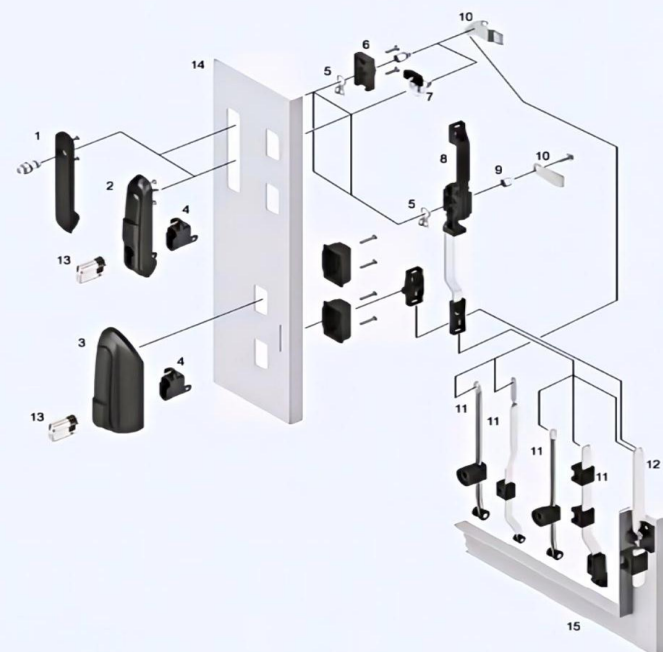

OEM & CUSTOMIZATION

RAPID PROTOTYPING

In-house 3D CAD modeling and CNC sample fabrication for rapid client sign-off before mass production.

PRIVATE LABELING

Custom laser engraving and bespoke export-grade packaging tailored to your brand identity.

SECTOR EXPERTISE

PROJECT APPLICATIONS

WPC DOOR FACTORIES

Proprietary extended-thread screws and reinforced mounting hardware engineered specifically for composite door densities.

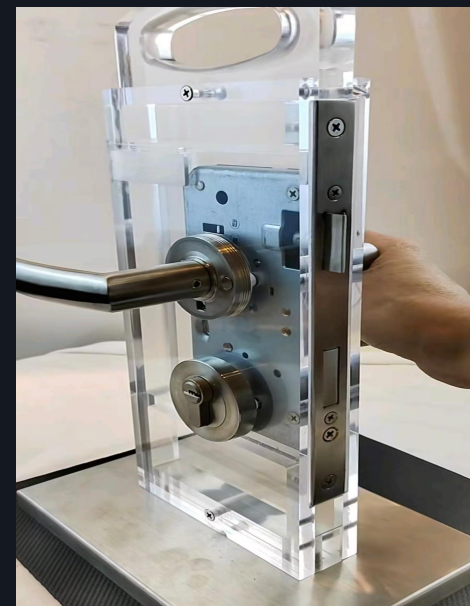

COMMERCIAL REAL ESTATE

Heavy-duty fire-rated and acoustic door hardware designed for corporate towers, luxury hotels, and hospitals.

RESIDENTIAL VILLAS

Minimalist designer handles and high-security mortise locking systems tailored for high-end residential developments.

PARTNERSHIP WORKFLOW

COOPERATION PROCESS

01 REQUIREMENT ANALYSIS

Reviewing drawings, specifications, and project scope.

**02 SAMPLE & PROTOTYPING**

Physical sample dispatch and technical sign-off.

**03 PRECISION PRODUCTION**

Automated manufacturing and rigorous quality checks.

**04 SECURE LOGISTICS**

Export-grade packaging and GCC shipping compliance.

GET IN TOUCH

CONTACT PAGE

Whether you are scaling a WPC door manufacturing line, supplying a major commercial project in Riyadh, or seeking a reliable long-term hardware partner, Fortis is ready to support your objectives.

Contact our Middle East regional desk today to request comprehensive product catalogs, physical sample kits, or tailored commercial proposals.
